NEW FRONT FOR HOTEL

Work Commenced This Morning and Many Improvements Will Be Made.

Work has begun on the new modern plate glass front of the Bainum hotel, formerly the Ream, now owned by E. H. Bainum. A fine big door, costing $75, will be in the same position as the present one. The small rooms that are now joining the office will all be connected with the office room, making a large lobby. A tile floor will be put in. At the west side of the office room will be a ladies' rest room. Mr. Bainum will get a new desk and all new furnishings for the new lobby. He is undecided as yet whether he will change the stairway.

The rooms have all been remodeled and new furniture has been put in.

When the Bainum hotel is finished it will be almost a new hotel.

FEDS HAD EASY GAME

IMOGENE WENT DOWN TO DEFEAT BY 15 TO 4 SCORE.

TOURNAMENT NEXT WEEK

Feds, Shenandoah, Stanberry and Albany Will Play, and Some Real Base Ball Will Be Had.

Imogene was easy and the Feds romped, winning yesterday's ball game 15-4. The visitors were too easy, in fact, and a loose and uninteresting game resulted. The Feds gathered fourteen hits, including a two-base hit by Grant, triples by Stewart and L. Walker and home runs by Cowal and V. Walker. Grant pitched for the Feds and for six innings allowed the Iowans nothing. But with the score 10-0 in the seventh he eased up and "tossed 'em over," because he has to pitch another game today. They took advantage of that and picked up seven hits and four runs during the rest of the game. In the fourth and fifth innings Grant struck out six straight batsmen, having twelve strikeouts during the entire game.

Ridenbaugh started the game for Imogene and ten runs were scored off him in five innings. In the sixth Wyman, their star hurler, was sent to the mound. The Feds might not have won so easily had he been there all the time, but he worked in a tournament game yesterday and his arm was in bad shape.

In the eighth Cowal struck out, but reached first, the catcher droping the ball. When the ball was returned to the pitcher, Cowall slipped down to second before the pitch was made, and they started to protest without calling time. Cowall journeyed on to third, and when the catcher very thoughtlessly started out to join the controversy, leaving home plat uncovered, Cowall dashed home, having stolen his way all around.

Next Sunday the Feds will go to Albany to tangle with the Bronchos again. Grant wil probably pitch for the Feds. Next week, after the fair, is the week of the tournament here. Shenandoah and Stanberry will be loaded with league men, while Albany and the Feds will have some of their old players, who are playing in leagues which close today. Richardson, Horan and Black will join the Feds, and the fans here will see some real base ball in the tournament.

HALE TO ST. LOUIS

BAPTIST MINISTER RESIGNS AT LAST EVENING SERVICE

WILL LEAVE OCTOBER 1

The Rev. Mr. Hale Has Been Pastor Here Three Years—Church Has Made Wonderful Progress.

The Rev. Lewis M. Hale, pastor of the First Baptist church, resigned at the evening service last night to accept the pastorate of the Delmar Avenue Baptist church in St. Louis. His resignation will take effect October 1, and his last Sunday here will be September 24.

His announcement was received with much regret by the members of that church. The Rev. Mr. Hale said he

hated to go but thought that he could do a greater work in St. Louis, since there was a bigger field and a new church. This St. Louis church made an effort to secure Mr. Hale last January, but at time he declined to accept the call. Since that time that church renewed its efforts and offered him $1,000 more in salary than he was receiving here.

The Rev. Mr. Hale came to Maryville three years ago to succeed the Rev. Lee Harrell. He came direct from the Seminary at Louisville. He is a graduate of the Wiliam Jewell College at Liberty and this charge in Maryville was his first pastorate. He is typically a "man among men" preacher, and the work he has accomplished is considered extraordinary. He is one of the most popular ministers ever in the city.

When Mr. Hale came here to take charge of the church the membership was 273. The membership at the present time is 751. An indebtedness of $2,500 has been paid off and this year he raised $5,807.43 for the regular missions and the expenses of the church. Last year $3,300 was spent for church improvements.

Mr. Hale took a prominent part in the local option election held in Maryville on February 3, and much of the credit for the large majority by which Maryville went dry is due to Mr. Hale.

The five rural schools which did not open today was on account of their repairs and the school buildings not being ready for opening. They will open next Monday.

CHURCH INDORSES PLAN

CENTENNIAL CONFERENCE AT FAYETTE FAVORS MERGER.

Bishop Hendrix Likes Unification Resolutions—The Text of the Resolution.

The Missouri conference of the M. E. church, South, is closing at Fayette, Mo., one of the greatest sessions held in its history of one hundred years. A resolution concerning the unification of the Methodist churches was presented and was unanimously adopted by a rising vote. Rev. W. M. Alexander, pastor of Arch street Church, Hannibal, was appointed to bear greetings to the next session of the Missouri conference of the Methodist Episcopal church at Kirksville, September 20.

The resolution follows:

Whereas, Favorable action has been taken by the general conferences of the Methodist Episcopal church, the Methodist Episcopal church, South, looking to the union of American Methodism into one reorganized church, thereby bringing to an end conditions that have been a hindrance to the growth of Methodism and the extension of the kingdom of God; therefore, be it

Resolved by the Missouri conference of the Methodist Episcopal church, South:

First—That we contemplate with great satisfaction the prospect of an early union of these churches and here record our thankfulness to the great head of the church for his manifest leadership toward that end.

Second—That we express our unqualified disapproval of the action of any who, in the discussion of this question, have by insinuation or otherwise reflected upon the integrity or sincerity of motives of individuals or churches concerned.

Third—That we deprecate any resurrection of dead issues that would tend to stir up prejudice and perpetuate strife and bitterness in the hearts of our people.

Fourth—That we respectfully suggest to the joint commission on unification our conviction that it is much more important that the reorganized church shall embody those elements that shall make for its future efficiency than that sentiments, practices or principles contended for in the past should be preserved.

Fifth—That we hereby call our people to prayer to God, on behalf of the joint commission that He may rule in all their work, and on behalf of Methodist people everywhere, that their hearts may indeed be knit together in bonds of Christian fraternity and love.

C. B. Duncan, R. H. Cooper, J. A. Mumpower, J. J. Reed, R. E. Goodrich, P. H. Linn, A. C. Johnson, M. E. Lawson, S. W. Hayne, A. C. Browning, S. P. Cresap, C. O. Ransford.

The conference was addressed on the subject of temperance and prohibition by Wayne B. Wheeler of Washington, national attorney of the American Anti-Saloon League. The conference expressed vehement opposition to the saloon and encouraged its preachers and laymen to fight for a dry nation and a dry Missauri.

PRESIDENT SIGNS BILL

WILL AFFIX SIGNATURE AGAIN TUESDAY TO INSURE LEGALITY.

Measure Will Not Become Effective Until January 1—To Test the Constitutionality of the Act.

Washington, Sept. 4.—The Adamson eight-hour day bill, exacted from congress last week by the railroad brotherhoods as the price for calling off the nation-wide strike ordered for today, was signed by President Wilson yesterday at his private car at the union station, where he stopped on his way from Shadow Lawn, N. J, to Hodgenville, Ky. That there may be no question as to the legality of the measure as a result of it havin gbeen signed on Sunday, the president will affix his signature again upon his return to Washington Tuesday.

How long peace shall reign as a result of the bill apparently is dependent upon developments in the proposed move to test the constitutionality of the act. Should the railroads take no action, but await the beginning of an investigation of the workings of the eight-hour day by the special commission for which the measure provides, the brotherhoods will remain inactive.

The employes' leaders declare, however, that should the measure be held unconstitutional and the railroads attempt to restore the ten-hour day on their lines, a strike will follow promptly.

Brotherhoods in a circular letter to their members made no comment on the measure as passed. They merely pointed out that it would not become effective until next January, and that many things might occur between now and then which would change materially any suggestions or comment they might make.

Mr. and Mrs. S. K. Lewis and two son, Earl and Ira Lewis, and Mr. and Mrs. Hubert Hawk returned Saturday from the Iowa state fair at Des Moines.

Mrs. Percival DeLuce and daughter, Miss Olive DeLuce, and Miss Marjory Wilfley returned Saturday night from a several weeks visit in Colorado.

ADVICE FROM GEN. HUGHES

London, Sept. 2.—General Sir Sam Hughes, head of Canada's military forces, was paying a visit to a hospital in which Canadian wounded are lying. He commiserated with a man who had lost one foot.

"But it is all right," said the patient. "You see, general, I can never get cold feet again."

"Are you married?" he asked.

"No," replied the nurse, blushingly.

"Then don't get married until after the war."

The consolidation of the two great Poland-China Record associations into one powerful body, with headquarters at Maryville, Mo., will doubtless increase the importance—already very large—of the movement for the best achievements in Poland-China breeding. FOR THE INFORMATION OF THE PUBLIC:

The Railroads' statement of their position on the threatened strike, as presented to the President of the United States

A strike on all the railroads of the country has been called by the Train Brotherhoods for 7 o'clock Monday morning, September 4.

This strike was ordered from Washington while the President of the United States was making every effort to avert the disaster.

The Final Railroad Proposal

The final proposal made by the railroads for a peaceful settlement of the controversy, but which was rejected by the brotherhoods, was as follows:

(a) The railroads will, effective September 1, 1916, keep the time of all men represented in this movement, upon an 8 hour basis and by separate account, monthly, with each man, maintain a record of the difference between the money actually earned by him on the present basis and the amount that would have been earned upon an 8 hour basis—overtime on each basis to be computed pro rata.

The amounts so shown will be subject to the decision of the Commission, provided for in Paragraph (c) of this memorandum and payable in money, as may be directed by said Commission in its findings and decision.

(b) The Interstate Commerce Commission to supervise the keeping of these accounts and report the increased cost of the 8 hour basis, after such period of actual experience as their judgment approves or the President may fix, not, however, less than three months.

(c) In view of the far-reaching consequences of the declaration made by the President, accepting the 8 hour day, not only upon the railroads and the classes of labor involved directly in this controversy, but to the public and upon all industry, it seems plain that before the existing conditions are changed, **the whole subject in so far as it affects the railroads and their employees, should be investigated and determined by a Commission to be appointed by the President,** of such standing as to compel attention and respect to its findings. The judgment of such a Commission would be a helpful basis for adjustments with labor and such legislation as intelligent public opinion, so informed, might demand.

Statement of Executives to the President

In submitting this proposal to the President, the fifty railroad executives called to Washington and representing all the great arteries of traffic, made this statement to him of their convictions:

The demands in this controversy have not been presented, in our judgment, for the purpose of fixing a definite daily period of labor, nor a reduction in the existing hours of labor or change in methods of operation, **but for the real purpose of accomplishing an increase in wages of approximately One Hundred Million Dollars** per annum, or 35 per cent. for the men in railroad freight train and yard service represented by the labor organizations in this matter.

After careful examination of the facts and patient and continuous consultation with the Conference Committee of Managers, and among ourselves, we have reached a clear understanding of the magnitude of the questions, and of the serious consequences to the railroads and to the public, involved in the decision of them.

Trustees for the Public

As trustees for the public served by our lines and for the great mass of the less powerful employees (not less than 80 per cent. of the whole number) interested in the railroad wage fund—as trustees also for the millions of people that have invested their savings and capital in the bonds and stock of these properties, and who through the saving banks, trust companies and insurance companies, are vitally interested to the extent of millions of dollars, in the integrity and solvency of the railroads of the country, **we cannot in conscience surrender without a hearing, the principle involved,** nor undertake to transfer the enormous cost that will result to the transportation of the commerce of the country.

The eight-hour day without punitive overtime involves an annual increase, approximately, in the aggregate of Sixty Millions of Dollars, and an increase of more than 20 per cent. in the pay of the men, already the most highly paid in the transportation service.

The ultimate cost to the railroads of an admission in this manner of the principle under contention cannot now be estimated; the effect upon the efficiency of the transportation of the country now already under severe test under the tide of business now moving, and at a time when more, instead of less, effort is required for the public welfare, would be harmful beyond calculation.

The widespread effect upon the industries of the country as a whole is beyond measure or appraisement at this time, and we agree with the insistent and widespread public concern over the gravity of the situation and the consequences of a surrender by the railroads in this emergency.

In like manner we are deeply impressed with the sense of our responsibility to maintain and keep open the arteries of transportation, which carry the life blood of the commerce of the country, and of the consequences that will flow from even temporary interruption of service over the railroads, but **the issues presented have been raised above and beyond the social and monetary questions involved,** and the responsibility for the consequences that may arise will rest upon those that provoke it.

Public Investigation Urged

The questions involved are in our respectful judgment, eminently suitable for the calm investigation and decision by the public through the agency of fair arbitration, and cannot be disposed of, to the public satisfaction, in any other manner.

The decision of a Commission or Board of Arbitration, having the public confidence, will be accepted by the public, and the social and financial rearrangements made necessary thereby will be undertaken by the public, but in no less deliberate nor orderly manner.

The railroads of the country cannot under present conditions assume this enormous increase in their expenses. If imposed upon them, it **would involve many in early financial embarrassment and bankruptcy and imperil the power of all to maintain their credit** and the integrity of their securities.

The immediate increase in cost, followed by other increases that would be inevitable, would substantially appropriate the present purchasing power of the railroads and disable them from expanding and improving their facilities and equipment, to keep abreast of the demands of the country for efficient transportation service.

In good faith we have worked continuously and earnestly in a sincere effort to solve the problem in justice to all the parties at interest. These efforts were still in progress when the issuance of the strike order showed them to be unavailing.

Problem Threatens Democracy Itself

The strike, if it comes, will be forced upon the country by the best paid class of laborers in the world, at a time when the country has the greatest need for transportation efficiency.

The problem presented is not that alone of the railroad or business world, but involving democracy itself, and sharply presents the question whether any group of citizens should be allowed to possess the power to imperil the life of the country by conspiring to block the arteries of commerce.

MISSOURI CORN, 135 MILLION

The condition is 22 Per Cent Lower Than a Year Ago—Wheat 85 to the Acre.

The present prospect is for a corn crop of 135 million bushels on 7,218,000 acres in Missouri, according to the state crop report, issued aSturday. This is 85 million less than the 1915 crop. The present corn condition is 53.4, compared with 57.2 a month ago, 75.4 a year ago, and 72.3 as 10-year September average. In 1913 it was 41.8. Conditions by sections: Northeast 67, northwest 64, central 48, southwest 34, southeast, 54

The estimated wheat crop is 8.5 bushels to the acre, total 15 million bushels, the same as a month ago.

Plowing has been delayed because of hard ground. Only 25 per cent of the area is broken. A reduced fall sown acreage is probable, owing to fear of Hessian fly damage and discouragement over the year's small yield.

The oats yield averaged 24.7 bushels; timothy 1.25 tons, rye 10.

Condition of pastures is 58.

Only about two-thirds as many hogs as a year ago are on feed; cattle on feed 63 per cent; spring pig crop 75 per cent.

WHY MEN CHEW TOBACCO

It's the Only Way That Real Tobacco Hunger Can Be Entirely Satisfied

"OLD KENTUCKY" IDEAL CHEW

Since tobacco was first introduced to civilization, nobody has ever discovered so supremely satisfactory a way to get all the flavor and enjoyment out of it as chewing it. And no other form of chew can give you the hearty, wholesome, juicy flavor that you get from a delicious high-grade *plug* tobacco like Old Kentucky.

The secret of the greatest chewing satisfaction lies in the selection of your chew. Among plug tobaccos the brand that gets the most enthusiastic endorsement is undoubtedly Old Kentucky. The reason for this is not hard to find.

Old Kentucky is made exclusively of ripe Kentucky Burley—the most richly-flavored chewing tobacco that grows. Still more, only the very choicest of all the Burley leaf is used for Old Kentucky.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter and is pressed into plugs so slowly that not a drop of juice or an atom of flavor escapes. Moreover, Old Kentucky is made under the most rigid, cleanly and sanitary conditions.

The result is a sweet, mellow, luscious, satisfying chew that cannot be obtained in any other tobacco than Old Kentucky.

Try a 10c pocket plug to-day.

SEWING MACHINE SLAVES FREED!

3-in-One will free *you* from sewing machine drudgery.

Inferior oil gets your machine out of order—clogs the action parts—wears out the machine—and *you*.

3-in-One is a pure oil compound that flows right into the most delicate action parts—lubricating every bearing just exactly right. It makes the whole machine run rightly and lightly—smoothly and swiftly. Renews life and usefulness of old machines. Cleans and polishes all wood and metal work. Prevents rust and tarnish on all metal parts. Won't dry out, cake, gum, turn rancid or collect dust. Contains no grease or acid.

Household size, 8 oz. bottle, 50 cts; 3 oz., 25 cts trial size, 10 cts.
